

# Pechakucha urban farming presentation

## Project Profile

**What:** Urban farming presentation

**Where:** Roppongi, Tokyo, 28 February 2018

**Presented by:** Urban farming consultant Jon Walsh

**E:** info@businessgrow.net

In February 2018 at a Pechakucha event in Roppongi Tokyo, [Business Grow](#) urban farming/sustainability consultant **Jon Walsh** spoke to over 200 attendees about how urban farming is increasingly being used as a tool to improve personal health, create more sustainable families, communities and cities, maximize urban self-sufficiency, increase disaster preparedness, and fight climate change – simultaneously.

Jon delved into vertical and rooftop farming, outlined the exciting future of urban farming, and wrapped up his presentation with a seed sowing/seedling transplanting demonstration.

Jon covered a wide range of topics from the dangers of pesticides and the cost effectiveness of growing your own, to future farms and how urban food can support the community

Food growing demonstration
