

Business Dashboards

Promote your business, vision & strategy on 1 page

Are you looking for a simple, time-saving way to present key information, facts and figures about your business to potential partners, customers, media and investors?

You just found it.

A **Business Dashboard** is a 'business gateway' presenting a customized serving of all the key information your potential customers need to know but may not have time to find.

The efficient dashboard format gives them complete control over what they view – based on key information you want them to see.

Potential customers who click the featured hyperlinks in your Business Dashboard will be taken immediately to the webpages on your and other websites that are relevant to them and that will encourage them to buy, partner with, or support you.

That means you'll be able to present tailored information focused on boosting sales – and targeted sales pitches – every time.

What types of information can be included in a Business Dashboard?

- Business introduction/overview/vision
- Product/service information
- Work and product samples
- Case studies and key achievements
- Profiles of key executives and staff
- Advertising and special promotions
- Company history
- Client list, price lists, etc.
- CSR/IR information, and others.

To make your business marketing even more efficient, different Business Dashboards can be created for different targets including customers, investors, partners, media, and more.

For even greater impact, combine a dashboard with a [Business Bio](#) or [corporate profile](#).

CONSULTING TOKYO

What we do

City Legal Experts have been working with clients since 1995 to help ensure best practices and best results.

We fuse the creativity, knowledge, experience and information resources of the company to help clients solve challenges large and small, from navigating market entry and multi-jurisdictional regulation, to merger control and antitrust litigation. Our lawyers know the law and operate across borders with confidence backed by a team of experienced researchers who have key information and data at their fingertips to help our clients go further.

Going the extra mile

It's our standard practice to go the extra mile for our clients. We go even further to help our clients succeed in the areas of banking and finance, capital markets, employment, dispute resolution, financial regulation, and competition and antitrust. [> Services](#)
